

Placement Cell
Requirements not implemented
Group 22

Interview Scheduling:

According to the interview timing, there should be a video conference call on the website at the time of the interview.

Data Analysis:

A system for tracking and analyzing student information and recruitment trends, allowing the placement cell to spot trends and identify areas for improvement.

Resume Builder:

A tool for students to create and manage their resumes, which can be made available to recruiters.

Transportation/Location:

Companies will be able to view various transportation options to reach the college campus.

Faculty Endorsement:

Student course information and the endorsements of the faculty are not shown on the portal.
